

Certificate Of Registration

IN TERMS OF THE NATIONAL NUCLEAR REGULATOR ACT, 1999 (ACT NO. 47
OF 1999)

CERTIFICATE OF REGISTRATION NO. COR-86

Certificate of Registration No. COR-86 is hereby granted by the National Nuclear Regulator (hereinafter referred to as the NNR) in terms of section 22 of the above Act

to

GLENOVER PHOSPHATE LIMITED (THABAZIMBI SITE)

Registration number: 63/00788/06
Registered address : 15 Polo Crescent
Woodmead Business Park
Woodmead
Johannesburg

(hereinafter referred to as the holder)
subject to the terms and conditions set out herein.

M T Magugumela
CHIEF EXECUTIVE OFFICER

AUTHORISATION CONDITIONS PART 1: GENERAL CONDITIONS

1.1 SCOPE

- 1.1.1 The holder is authorised to carry out activities associated with radioactive material as set out, and on the site as identified, in section 2.1 of this Authorisation.

1.2 HAZARD ASSESSMENT

- 1.2.1 Assessments, approved by the NNR, shall be conducted by the holder in respect of all operations and activities involving radioactive material set out in section 2.1 of this Authorisation which could give rise to a risk of nuclear damage. The assessments must identify and quantify all potential radiation hazards:

1.2.1.1 to persons employed at or visiting the site

and

1.2.1.2 to members of the public.

- 1.2.2 Details of any proposed modification to existing facilities or amendment of any procedure or construction of any facility, which may have an effect on the risk of nuclear damage and which has not been addressed by the hazard assessments identified in section 2.2 of this Authorisation, together with a quantitative assessment of its impact on the risk of nuclear damage, shall be submitted to the NNR by the holder. Such proposals shall be approved by the NNR before being implemented.

1.3 OPERATIONAL LIMITATIONS

- 1.3.1 The limitations pertaining to normal operations and listed in section 2.3 of this Authorisation shall be adhered to.
- 1.3.2 No activities involving the demolition or disposal of any plant used for the processing of radioactive material shall be undertaken prior to approval by the NNR of the radiation hazard assessment and the radiation protection programme for such activities.

1.4 OPERATIONAL RADIATION PROTECTION

1.4.1 WORKFORCE

- 1.4.1.1 Based on the results of the assessments referred to in clause 1.2.1, programmes embodying all aspects as required by NNR documents RD-006: "Requirements for the Control of Radiation Hazards: Mining and Minerals Processing", and RD-011: "Requirements for Medical Surveillance and Control of Persons Occupationally Exposed to Radiation: Mining and Minerals Processing", in the revisions specified in section 2.4.1, must be established and be submitted to the NNR for approval. These programmes must ensure and demonstrate that radiation doses to persons employed at the site and to visitors to the site are in compliance with the radiation dose limitation system set down in the NNR document RD-010: "Requirements for Radiation Dose Limitation: Mining and Minerals Processing", in the revision specified in section 2.4.1 of this Authorisation. The programmes, as approved by the NNR, shall be implemented by the holder.
- 1.4.1.2 The provisions contained in the revision of documents listed in section 2.4.1 of this Authorisation and submitted in terms of condition 1.4.1.1 of this Authorisation, shall be adhered to.

1.4.2 PUBLIC

- 1.4.2.1 Based on the results of the assessments referred to in clause 1.2.1, programmes embodying all aspects as required by NNR document RD-007: "Requirements for Control over Radioactive Effluent Discharges and Environmental Surveillance: Mining and Minerals Processing", in the revision specified in section 2.4.2 of this Authorisation, must be established and be submitted to the NNR for approval. These must ensure and demonstrate that radiation doses to members of the public are in compliance with the radiation dose limitation system set down in the NNR document RD-010: "Requirements for Radiation Dose Limitation: Mining and Minerals Processing", in the revision specified in section 2.4.1 of this Authorisation. The programmes, as approved by the NNR, shall be implemented by the holder.
- 1.4.2.2 The provisions contained in the revision of documents listed in section 2.4.2 of this Authorisation and submitted in terms of condition 1.4.2.1 of this Authorisation, shall be adhered to.

1.5 RADIOACTIVE WASTE

- 1.5.1 A radioactive waste management programme embodying all the requirements contained in the NNR document RD-004: "Requirements for Radioactive Waste Management: Mining and Minerals Processing", in the revision specified in section 2.5 of this Authorisation, shall be established and submitted to the NNR for approval.

- 1.5.2 The provisions contained in the revision of documents listed in section 2.5 of this Authorisation and submitted in terms of condition 1.5.1 of this Authorisation, shall be adhered to.

1.6 TRANSPORTATION

- 1.6.1 Transportation of radioactive material or of any equipment or objects contaminated with radioactive material off the site or on roads which are accessible to the public must be carried out in terms of the provisions of the Regulations for the Safe Transport of Radioactive Material of the International Atomic Energy Agency in the revision specified in section 2.6 of this Authorization.
- 1.6.2 An annual report shall be submitted to the NNR detailing the number of consignments made during the preceding year, the radioactive content per consignment, the nature of the packaging and the names of the consignees.
- 1.6.3 The provisions contained in the revision of documents listed in section 2.6 of this Authorisation and submitted with regard to condition 1.6.1 of this Authorisation, shall be adhered to.

1.7 PHYSICAL SECURITY

- 1.7.1 A physical security system, approved by the NNR, which will prevent unauthorized access to areas containing radioactive material and which will prevent the unauthorized removal of such material, shall be in place.
- 1.7.2 The provisions contained in the revision of documents listed in section 2.7 of this Authorisation and submitted in terms of condition 1.7.1 of this Authorisation, shall be adhered to.

1.8 OCCURRENCES

- 1.8.1 An occurrence reporting mechanism, approved by the NNR, shall be established which will ensure that occurrences, including incidents and accidents as defined in the National Nuclear Regulator Act (Act No 47 of 1999), and as identified in the NNR document RD-012: "Notification Requirements for Occurrences: Mining and Minerals Processing", in the revision specified in section 2.8 of this Authorisation, are reported to the NNR by the holder in accordance with the provisions of that document and as specified by NNR document RD-009: "Verbal Emergency Communication with the National Nuclear Regulator: Mining and Minerals Processing", in the revision specified in section 2.8 of this Authorisation.
- 1.8.2 An emergency plan, approved by the NNR, shall be established to make provision for any occurrence involving radioactive material which gives rise to, or has the potential to give rise to, an unplanned exposure to radiation in excess of the respective annual effective dose limits for persons employed on the site, visitors to the site, and members of the public. This plan shall comply with the

requirements contained in NNR document RD-008: "Requirements for Emergency Preparedness: Mining and Minerals Processing", in the revision specified in section 2.8 of this Authorisation.

- 1.8.3 The provisions contained in the revision of documents listed in section 2.8 of this Authorisation and submitted in terms of condition 1.8.1 and 1.8.2, shall be adhered to.

1.9 QUALITY MANAGEMENT

- 1.9.1 All activities carried out within the scope of this Authorisation shall be subject to the requirements contained in the NNR document RD-005: "Quality Management Requirements for Activities Involving Radioactive Material: Mining and Minerals Processing", in the revision specified in section 2.9 of this Authorisation.

- 1.9.2 The provisions contained in the revision of documents listed in section 2.9 of this Authorisation and submitted in terms of condition 1.9.1 of this Authorisation, shall be adhered to.

1.10 SCHEDULE

- 1.10.1 The programme, scheduling the achievement of compliance with the conditions of this Authorisation, as set out in section 2.10 shall be adhered to.

This Certificate of Registration is effective from the date of issue.

Issued at Centurion on the 30 day of OCTOBER 2006.

M T Magugumela
CHIEF EXECUTIVE OFFICER

SECTION 2.1: SCOPE

2.1.1 The authorised site is:

The area as indicated in the boundaries of map: Sketch Plan for the Future Superphosphate Plant, for the Glenover Mine Portion 1 Glenover 371LQ.

The authorised site is located at: Glenover Mine, Portion 1 Glenover Farm LQ371, Lephalale District, Limpopo Province.

2.1.2 The authorised activities that may be undertaken are:

The milling of the phosphate rock and the reclamation of surface phosphate rock dumps for on-site manufacture of Superphosphate fertilizer. The phosphate that will undergo processing will be received from Glenover mine located in the Portion 1 of Glenover Farm LQ371, Lephalale District, Limpopo Province.

SECTION 2.2: HAZARD ASSESSMENT

2.2.1 SA-GLN

(Rev 0)

Safety Assessments for Workers.

CONTROLLED COPY

SECTION 2.3: OPERATIONAL LIMITATIONS

- 2.3.1 Radioactive waste with a specific alpha (U-238, U-234, Th-230, Ra-226, Po-210, Th-232 and Th-228) activity exceeding 1000 Bq/g shall be stored in a facility approved by the NNR.

CONTROLLED COPY

SECTION 2.4.1: RADIATION PROTECTION PROGRAMME - WORKFORCE

2.4.1.1	RD-006	(Rev 0)	Requirements for the Control of Radiation Hazards: Mining and Minerals Processing.
2.4.1.2	RD-010	(Rev 0)	Requirements for Radiation Dose Limitation Mining and Minerals Processing.
2.4.1.3	RD-011	(Rev 0)	Requirements for Medical Surveillance and Control of Persons Occupationally Exposed to Radiation: Mining and Minerals Processing.
2.4.1.4	WRPP	(Rev 0)	Worker Radiation Protection Programme at Glenover Phosphate.

| 2.8.1 | RD-012 | (Rev 0) | Notification Requirements for Occurrences: Mining and Minerals Processing. |
| 2.8.2 | RD-009 | (Rev 0) | Verbal Emergency Communication with the National Nuclear Regulator: Mining and Minerals Processing. |
| 2.8.3 | RD-008 | (Rev 0) | Requirements for Emergency Preparedness: Mining and Minerals Processing. |
| 2.8.4 | OR-GLN | (Rev 0) | Occurrence Reporting and Corrective Action. |

SECTION 2.9: QUALITY MANAGEMENT

- | | | | |
|-------|--------|---------|--|
| 2.9.1 | RD-005 | (Rev 0) | Quality Management Requirements for Activities Involving Radioactive Material: Mining and Minerals Processing. |
| 2.9.2 | QM-GLN | (Rev 0) | Quality Management. |

SECTION 2.10: SCHEDULE

Scope	Action	Completion
Authorised site – coordinates for all operational and redundant sources	Submission	July 2006

Worker Safety Assessment	Action	Completion
Safety Assessment Report for Surface Operations	Submission	August 2006

Public Safety Assessment	Action	Completion
Safety Assessment Methodology		
Safety Assessment Report		

Worker Radiation Protection Programme	Action	Completion
RP Programme, including maintenance activities	Submission	August 2006
6 Monthly Dose reports for surface operations	Submission	End of July End of January (include summary for year)

Public Radiation Protection Programme	Action	Completion
RP Programme		

Radioactive Waste Management	Action	Completion
Integrated radioactive waste management programme	Submission	September 2006
Quarterly waste reports	Submission	End of April End of July End of October End of January (include summary for year)

Occurrences	Action	Completion
Occurrence Report	Submission	As appropriate

Quality Management	Action	Completion
Quality Management Programme	Submission	July 2006
Self –Inspection Schedule and plan	Submission	July 2006
