### ESKOM APPLICATION FOR KOEBERG LIFE EXTENSION

The NNR confirms receipt of an application made by Eskom to operate the Koeberg nuclear power station beyond the current licensing basis. The NNR has accepted the application for further processing and to date no decision has been made.

Additionally for your information please find a high level summary of the application review process steps outlined below;

1. NNR receives application from Eskom
2. NNR accepts submission for further administrative processing.
3. NNR reviews Public Information Document connected with this application. Requires changes to be made if necessary. If no changes are required, then
4. NNR accepts Public Information Document
5. NNR directs Eskom to publish the application for comment in the local newspapers and serve notification letters to stakeholders
6. NNR performs technical review of the application
7. NNR utilises various technical and administrative regulatory criteria to decide on further public consultation. If the decision is to have further consultation.
8. The NNR will give notice of further public consultation and decide on the appropriate consultative method/s to be used.
9. NNR considers insights and representations made and then finalises its decision on the application.
10. NNR Announces decision
