

## **PUBLIC INFORMATION SESSIONS AND PUBLIC HEARINGS**

The National Nuclear Regulator (NNR) is an independent nuclear safety regulator that provides for the protection of persons, property and the environment against nuclear/radiation damage through the establishment of safety standards and regulatory practices suited for South Africa.

The NNR is holding local community public engagement sessions and public hearings for the Nuclear Installation Site Licence application received for the Thyspunt site. Members of the local community are encouraged to participate in these sessions and the public hearings.
