Dear Stakeholder

NEW LOGO ANNOUNCEMENT

We are proud to announce the launch of the new NNR logo and brand identity. As you are aware, the NNR occupies a unique position in the nuclear industry in South Africa, synthesizing the reliability of an established nuclear safety regulatory brand energized by the vitality of a rapidly transforming global energy sector and in particular the nuclear industry.

We have refreshed our logo to reflect our current environment whilst being mindful of our future. Our fundamental goal is to continue pursuing excellence as we continue to deliver efficient and effective regulation of radiation risks for the purposes of achieving the objects of the NNR Act, and our new logo is a visual expression of that commitment.

Please note that during the upcoming months, we will be updating our corporate communications collateral and online platforms to reflect the new NNR corporate identity. Refer to the attached PDF for an introduction to our new logo.

Yours Sincerely

.....
Dr. Mzibanzi Bismark Tyobeka
CHIEF EXECUTIVE OFFICER

Protecting people, property and the environment.

Eco Glades Office Park, Eco Glades 2 Block G, Witch Hazel Avenue, Highveld Ext 75,
Eco Park, Centurion, South Africa | PO Box 7106 Centurion, 0046.
