Regulator

Koeberg Long Term Operations Project

Important Public Information Session in Mitchells Plain

The NNR regulates the nuclear industry in South Africa to protect people and the environment from the risks of radiation associated with nuclear power plants, nuclear technology, radioactive waste and naturally occurring radioactive materials. Eskom is authorised by the NNR to operate the Koeberg nuclear power station.

The NNR will hold a public information meeting in Mitchells Plain to:

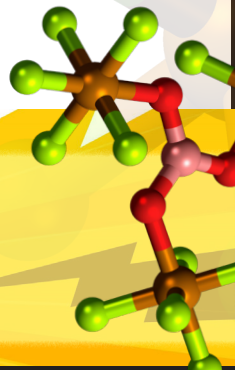

- Inform the public on the regulator's role in the Koeberg Long Term Operations Project.
- Share information with the public on the regulator's licensing process for the Koeberg Long Term Operations Project.
- Provide members of the public with an opportunity to have a dialogue with the NNR staff on nuclear and radiation safety.

We invite you to join us

02 DECEMBER 2023
Tafelsig Hall - In Kilimanjaro
13h30 - 16h00

Koeberg Langtermyn-bedryfsprojek

Belangrike openbare inligtingsessie in Mitchells Plain

Die Nasionale Kernkrag Reguleerder (NNR) reguleer die kernkragindustrie in Suid-Afrika om die publiek en die omgewing te beskerm teen die risiko's van radiasie wat verband hou met kernkragentrales, kerntegnologie, radioaktiewe afval en radioaktiewe materiale wat natuurlik voorkom. Eskom is deur die NNR gemagtig om die Koeberg-kernkragstasie.

Geliewe hiermee kennis te neem dat die NNR 'n openbare inligtingsessie in Mitchells Plain gaan hou om:

- Die publiek in te lig oor die Reguleerder se rol in die Koeberg Langtermyn Bedryfsprojek.
- Inligting met die publiek te deel oor die Reguleerder se lisensieproses vir die Koeberg Langtermyn Bedryfsprojek.
- Aan lede van die publiek 'n geleentheid te gee om hul bekommernisse uit te spreek en/of om vrae aan die NNR te stel.

Ons nooi jou uit om by ons aan te sluit
